

Life support for the procurement process.™

Oxygen Electronics LLC Expands its UK and Ireland Customer Support Teams

Oxygen Electronics LLC expands its Transaction Processing and Customer Support for the UK and Ireland through deepened relationship with Sarsen Technology Limited.

White Plains, NY – October 23rd, 2000- Oxygen Electronics LLC, a leading provider of Internet Commerce Solutions, Supply Chain Management, and Spot Market Services, announces the expanded role of Sarsen Technology Limited, an existing strategic partner to Oxygen Electronics. Sarsen Technology Limited will now be responsible for all Transaction Processing and Customer Support associated with Oxygen's web-based procurement tools.

Nigel Norman, founder and Managing Director of Sarsen Technology Limited, commented, "The expanded local presence gives Oxygen greater insight into their strategy and goals of our leading UK and Irish clients. This allows Oxygen to meet their ever increasing expectations while providing complete data management and procurement solutions." Nigel Norman has more than 18 years experience in the semiconductor industry working for both manufacturers of electronic components and for the OEM users of electronic components.

Mark Pasdon, co-founder of Oxygen Electronics, stated, "Local customer service and sales support will help us to meet the needs of our client base within the communication, CEM, and Mil/Aero industries. We feel that the "Oxygen" level of support will continue to differentiate Oxygen from the myriad of B2B.com companies. In essence, we know that "CLICK-DOT-COM" is not enough."
